DETAILED ACTION

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims 34, 40, and 43-46:

The primary reason for the allowance of claims 34, 40 and 43-46 is the inclusion of the method steps of: wherein said framing program further responds to a request that identifies said first activity and said first attribute of said first activity by using said data structure to access said data of said industrial process to retrieve activity data of said second activity. It is this feature found in the claim, as it is claimed in the combination that has not been found, taught or suggested by the prior art of record, which makes this claim allowable over the prior art.

Claims 35-39 are allowed due to their dependency on claim 34.

Claims 41-42 are allowed due to their dependency on claim 40.

Claims 12-19 are allowed due to their dependency on claim 44.

Claims 22-28 are allowed due to their dependency on claim 45.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Goldring (USPN 5,613,113) teaches a consistent recreation of
